295-1574 ext. 102

Everything served to our students during the school day—on or off campus—MUST meet/exceed a variety of State and Federal guidelines for Child Nutrition, as well as your District's "Wellness Policy".

Because we are part of your School District, we are committed to following these guidelines. We are knowledgeable in Child Nutrition, California Education Code, and ALL State and Federal guidelines regarding child nutrition.

And because we are part of your School District we are able to serve your students a full meal and receive partial reimbursement from the State and Federal Governments. This can help offset the cost of your classroom parties.
