Everything served to our students during the school day—on or off campus—MUST meet/exceed a variety of State and Federal guidelines for Child Nutrition, as well as the District's "Wellness Policy".

Because we are part of your School District, we are committed to following these guidelines. We are knowledgeable in Child Nutrition, California Education Code, and ALL State and Federal guidelines regarding child nutrition

This allows us to serve students a full meal and receive partial reimbursement from the State and Federal Governments. This can help offset the cost of your classroom parties.
